# INTRODUCTION

**"one Aadhaar, one vote"**

**Against crime**

The proposed website of our App VIGILANT CITIZEN aims to focus on crime reporting, including issues like deforestation, corruption, and fake fee charges. Users can submit evidence (images, videos, documents) and vote on reports to highlight them for judicial attention. It utilizes Aadhaar authentication to ensure genuine user registration, leveraging the "one Aadhaar, one vote" principle to prevent fake reports. The app seeks government approval to enhance societal awareness and seriousness about crimes.

# THEME : OPEN INNOVATION

## 1. **Crowdsourced Crime Reporting**

**You're allowing citizens to report crimes via images, videos, documents—this is direct involvement of the public in improving the system. You're using the collective intelligence of the crowd to detect, document, and highlight problems.**

## 2. **Community Voting Mechanism**

**Letting people vote on reported issues gives public importance to a case. The crowd decides what's urgent or deserves attention. This encourages transparency and citizen-led prioritization of justice issues.**

# What Can You Report?

Our platform enables citizens to report various issues affecting their communities. Your reports help create awareness and drive authorities to take action.

Deforestation

Corruption

Fake Fees

Illegal Dumping

# IDEA / PROBLEM :

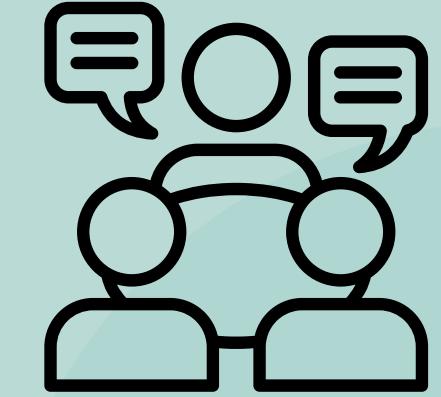

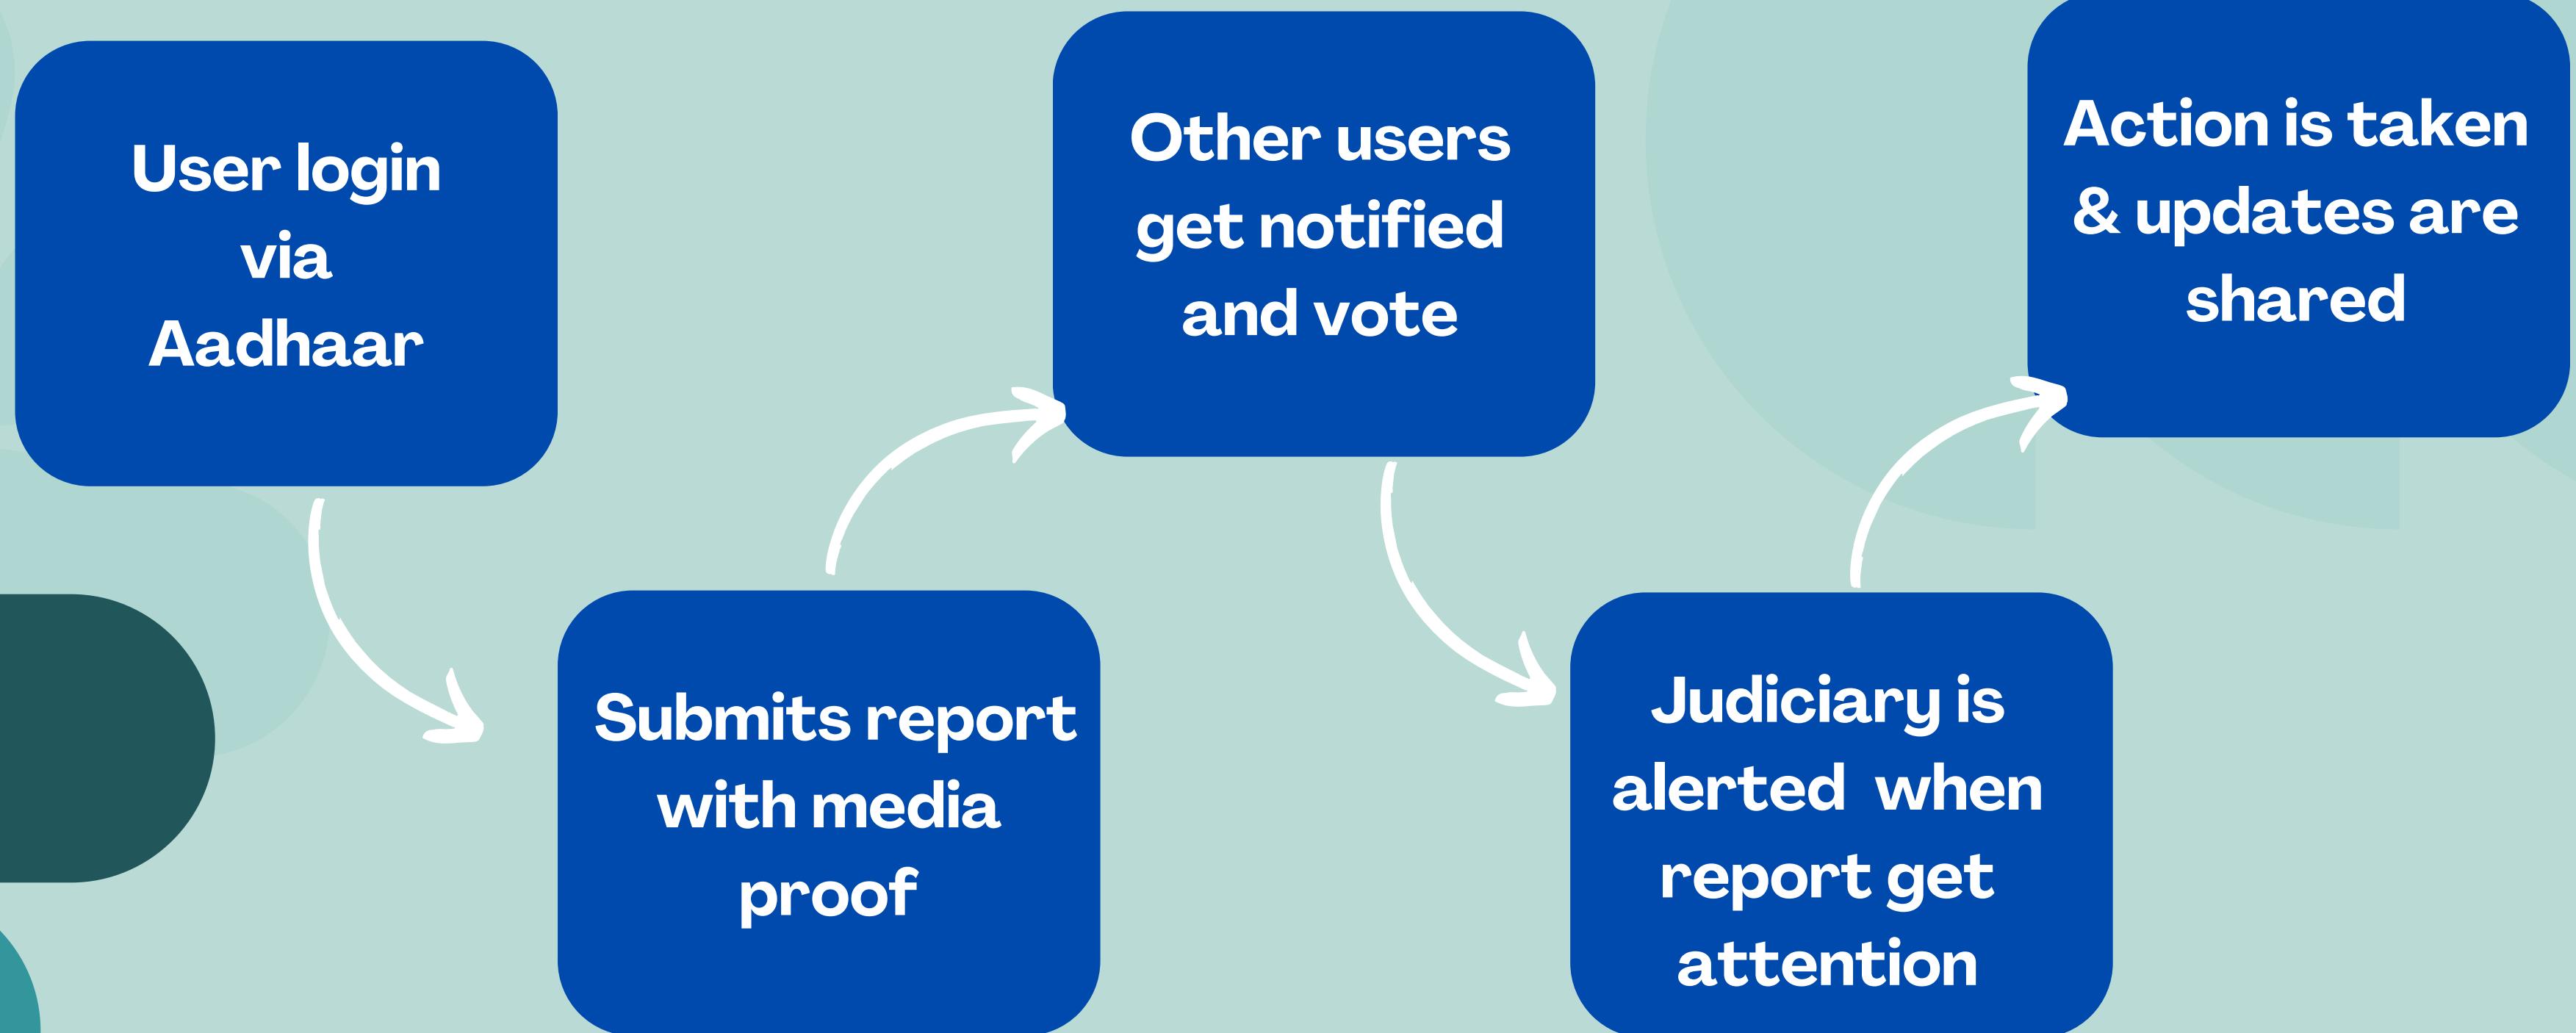

In today's world, crimes like unnecessary deforestation, fake fee charges, and corruption often go unreported due to fear, lack of awareness, or absence of a secure platform.

Even when reported, these crimes are ignored due to the lack of validation, leading to no proper action being taken.

Citizens need a safe, transparent, and verified way to raise their voice and ensure action is taken.

# OUR SOLUTION

# OUR SOLUTION

- We are building an WEBSITE that allows any citizen to report crimes using photos, videos, and documents.
- Every report is verified using Aadhaar-based registration, ensuring authenticity.
- Other users can vote on reported crimes, and cases with the most support are highlighted to the judiciary.
- Notifications are sent to all users in the area to raise awareness and prevent such crimes.

# VIGILANT CITIZEN GOALS

## Innovative Solutions

Users can report crimes by uploading images, videos, or documents related to deforestation, corruption, or other illegal activities.

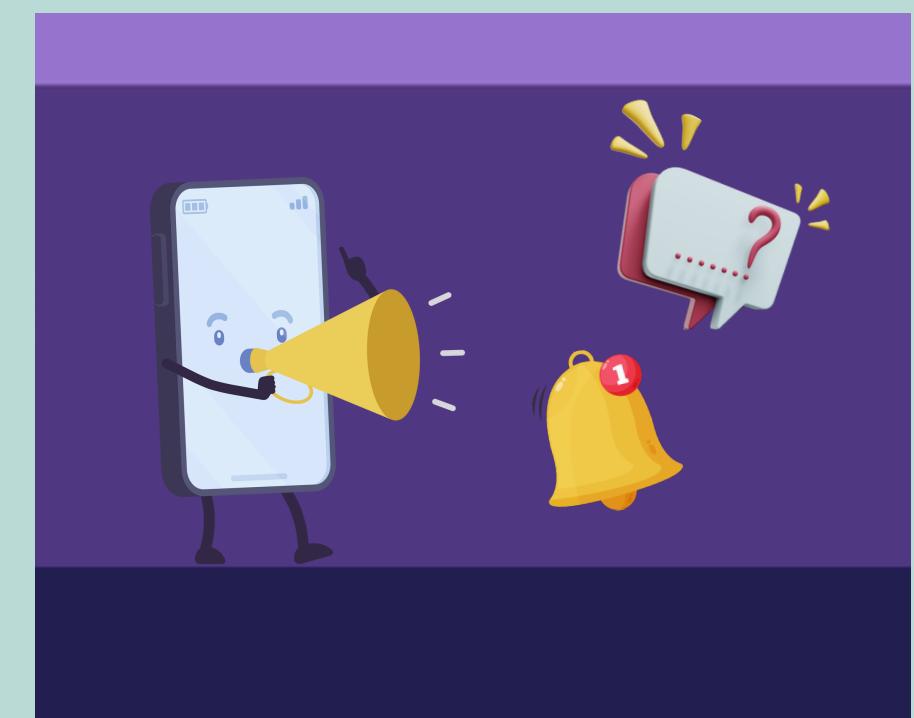

## Transparency and Efficiency:

Streamlines crime reporting and judicial processes.

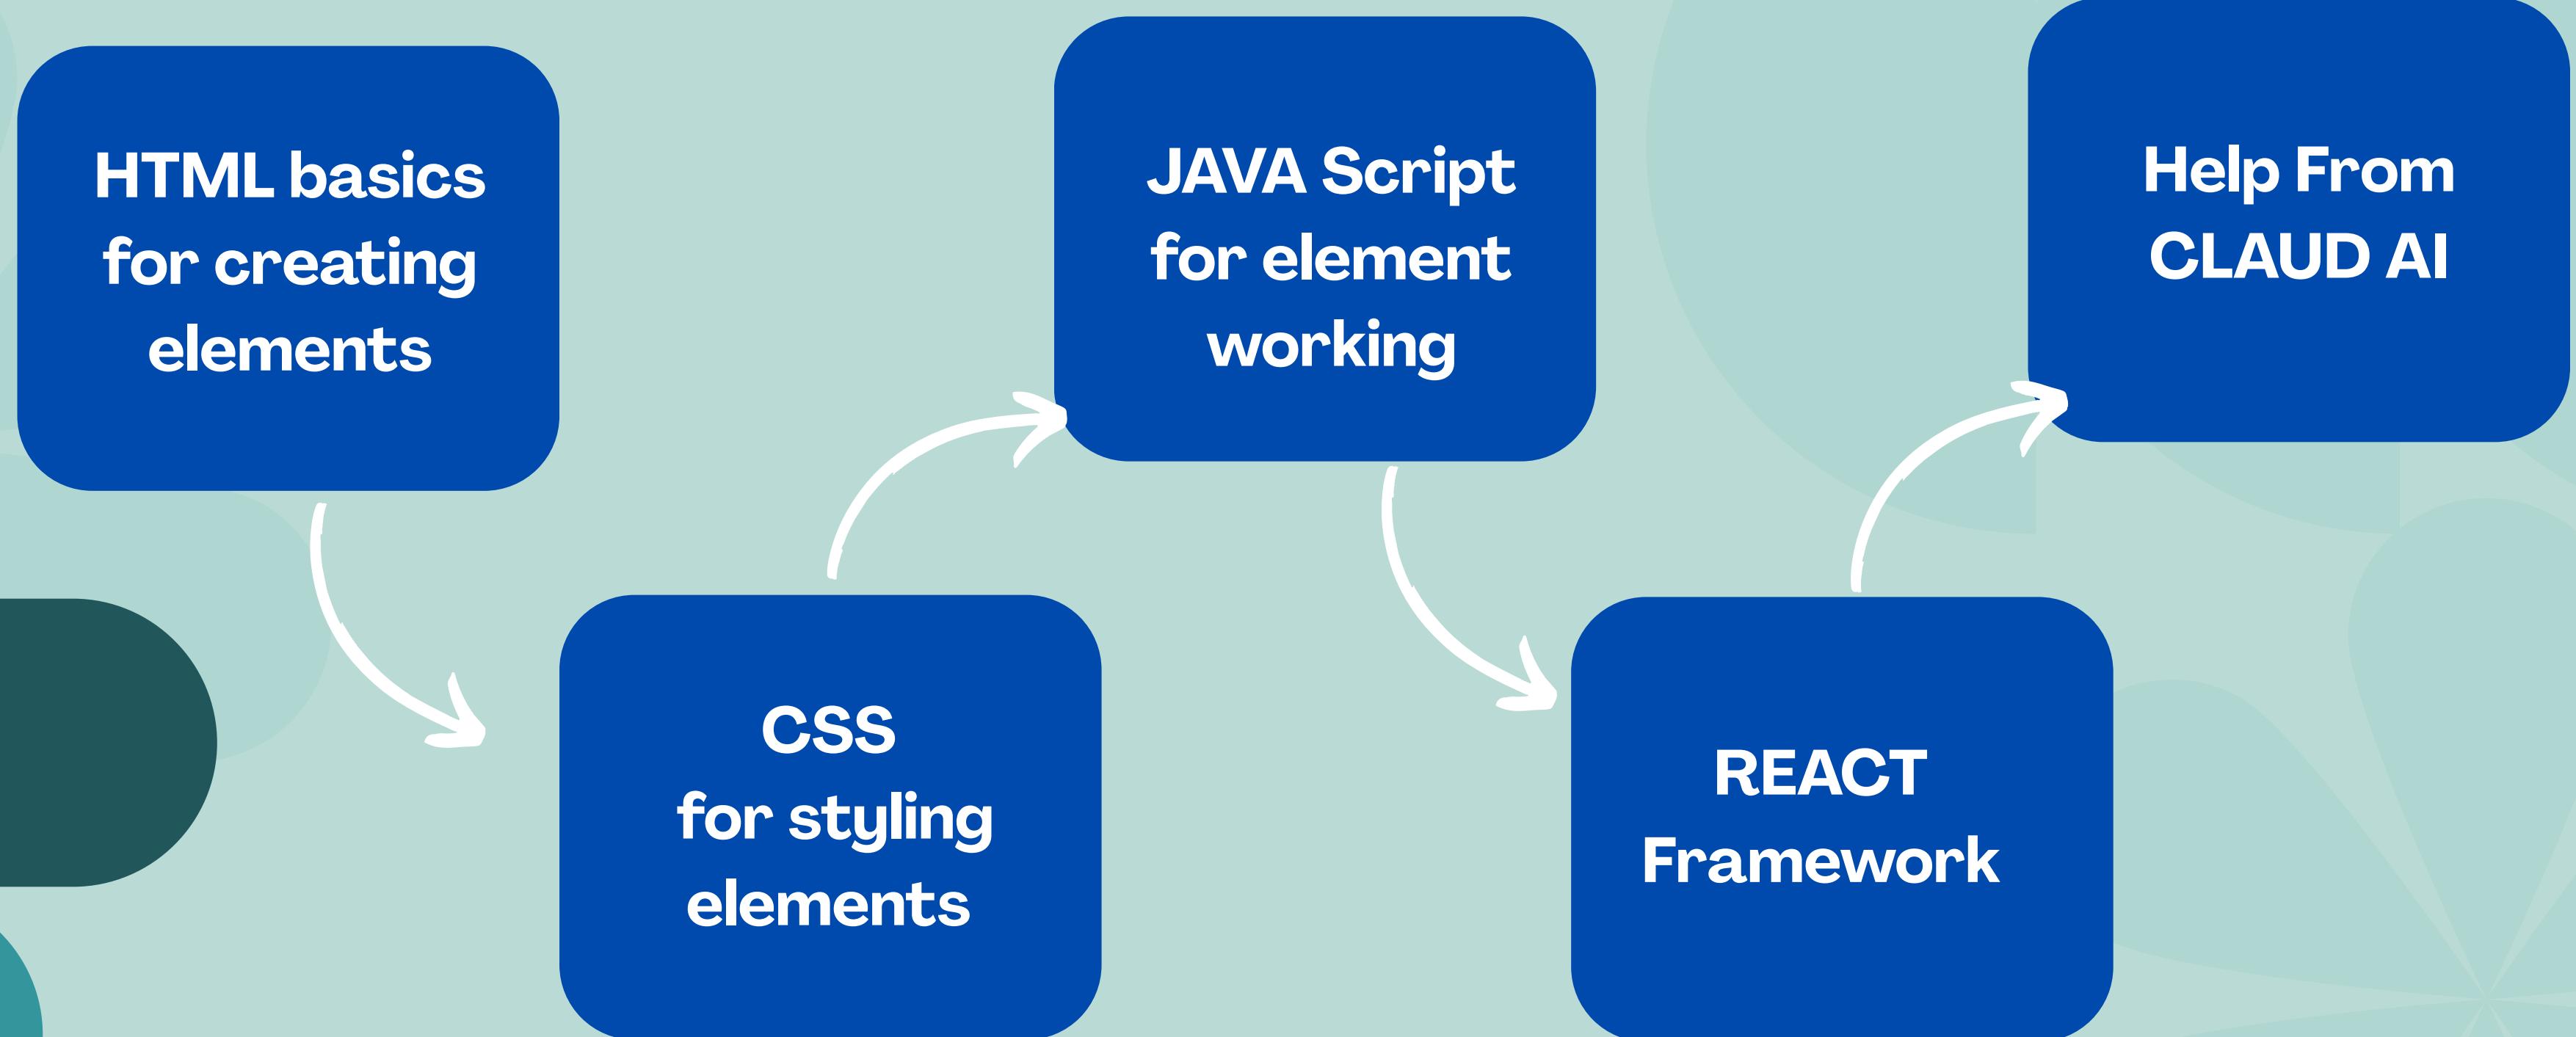

## Public Awareness

The app will disseminate news about reported crimes to registered users, enhancing public awareness and engagement.

# IMPLEMENTATION OF THE IDEA

Thank  
you

for your time!

We're excited to bring this  
idea to life and build a more  
just and aware society.
